Montana Millionaire FY 2023

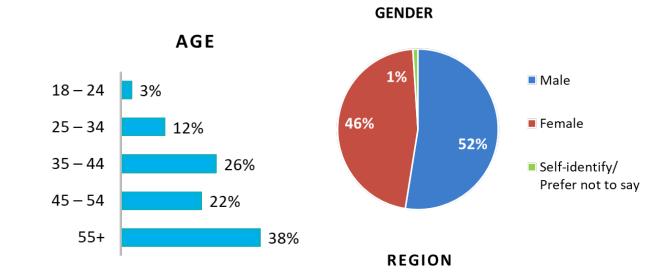

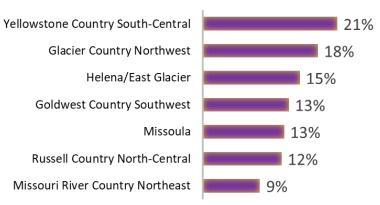

Montana Millionaire FY2023

What we took into consideration...

- The Leger research results confirmed players...
 - Like the limited number of tickets
 - Want a high tier prize added back to the prize structure
 - Want increased instant wins
 - Hope for an additional million-dollar prizes
- A ten percent increase in total tickets
 - A value safely under market saturation while still preserving the sellout
- The ability to add tickets in smaller amounts for years to come so we can safely add a third millionaire prize at some point in the future.

Respondents that played last year...

This year's game design...
